Presbyterian High School

Aflame for Truth

Vision

A Christ-centred community nurturing Passionate Learners, Servant Leaders and Stewards of Tomorrow

Mission

To inculcate Christian values in every individual and develop his potential as a total person worthy of God and man

Values

Resilience
We persevere through challenges and emerge stronger.

Integrity
We are honest and upright in thought, word and deed.

Courage
We explore possibilities with confidence and stand up for what is right.

Empathy
We seek to understand others and support one another.

Excellence
We take pride in all that we do and strive for continual growth.

Uniformed Groups

- Boys' Brigade
- Girls' Brigade
- National Cadet Corps (Sea)
- National Police Cadet Corps

Sports

- Badminton (Boys)
- Basketball
- Table Tennis
- Volleyball

Performing Arts

- Choir
- English Drama
- Guzheng Ensemble
- Modern Dance
- Symphonic Band

Clubs and Societies

- Audio Engineering
- PHMedia
- STEM (New)

Passionate Learners

Beyond Classroom Learning

The classroom is just the beginning. At PHS, our stretch programmes invite students to think bigger and go beyond what they thought possible. They develop emerging 21st century competencies, such critical and adaptive thinking, and learn to collaborate and communicate with confidence – competencies that will serve them well beyond school. We believe every student has a talent worth nurturing.

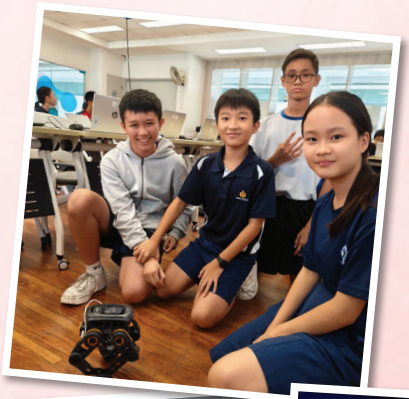

Igniting Minds @ PresHigh

Our Applied Learning Programme, Igniting Minds @ PresHigh, equips students with design thinking, coding and AI literacy through a tiered approach to tackle real-world challenges. PresHighians create human-centric solutions for health and food sustainability, supporting Healthier SG and the Singapore Green Plan 2030. They also deepen their passion through workshops in 3D printing and robotics, as well as learning journeys. Student leaders have further opportunities to represent PHS at competitions, mentor juniors, host international visitors and take on work attachments with industry partner serl.io.

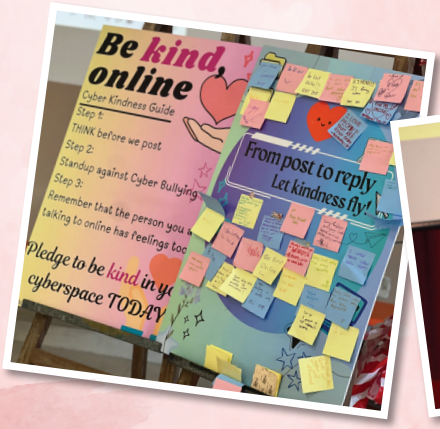

Servant Leaders

Igniting Hearts @ PresHigh

Our Learning for Life Programme, Igniting Hearts @ PresHigh, aims to develop Servant Leaders who Serve, Lead and Excel. All students participate in customised modules based on The Leadership Challenge by James Kouzes and Barry Posner, and they are exposed to Design Thinking through planning Values-In-Action projects. Student Leaders are also provided opportunities to exercise personal and community leadership. Additionally, LLP representatives and Peer Support Leaders organise school-wide events like PHS Kindness Week and the Lunar New Year LoHei, benefitting both the school and the community.

Stewards of Tomorrow

ECG Programmes

Explore. Chart. Grow. Our Education and Career Guidance (ECG) programmes help students discover their strengths and explore their interests. A conversation with an industry mentor, a first taste of the working world – every experience builds self-awareness and gives students insights into post-secondary and career pathways. With a clearer sense of who they are and the options available, they can take on the future with purpose, confidence and resilience.

Alumni Voices

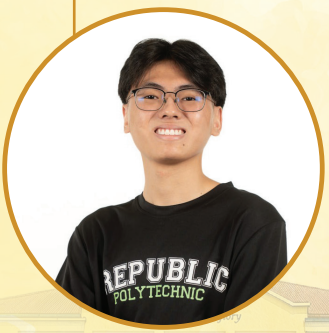

Patricia Kristiani Boy (Class of 2020)

In PHS, I made many lasting bonds with my peers and my teachers. With their guidance and encouragement, I was inspired to do my best. I also developed a strong work ethic and a solid foundation in my studies. These enabled me to secure scholarships for Junior College and University. I will cherish the memories made in PHS for a long time.

Patricia is currently pursuing a double degree in Economics and Social Sciences at SMU.

Tan Yu Ming (Class of 2023)

My experiences in PHS taught me resilience and provided me with a good foundation for serving others. The support from my teachers and encouragement from my friends gave me the confidence to step out of my comfort zone. After graduation, I became involved in service-learning and served in the Executive Committee of a club of around 1000 members. I helped source projects, coordinate volunteers and, when things did not go as planned, learn from the experience and improve. One of my proudest achievements was securing the club's first partnership with KampungKakis to support seniors in the community.

Yu Ming is a recipient of the Republic Polytechnic Service-Learner of the Year Award in 2026.

PresHigh GO! Beyond Borders Programme

Under the banner of PresHigh GO!, PresHighians explore the world through internationalisation experiences that develop emerging 21st Century Competencies. From service-learning trips in Cambodia and Thailand, to learning journeys at Aewol Middle School in Jeju, South Korea, students engage deeply with the world beyond the classroom. Locally-hosted exchanges with partner schools from Japan and Indonesia further strengthen intercultural connections. Together, these opportunities nurture PresHighians' passion for learning and empower them to be engaged and empathetic citizens of the world.

Open House

Date: 14 November 2026
Time: 0830 hours to 1230 hours
